Dr. Stefanos Georgiou

Location: In Budapest but prefer remote positions

Keywords: Back-End, DevOps, Automations, Integrations, and Energy & Run-Time Performance Researcher

Get in touch: firstname at simpletechs dot com, stefanos at simpletechs dot net, Tel: +36 70 624 1550

About me: I am passionate about research, **coding**, exploring emerging technologies, and automating repetitive and time-consuming tasks. My research interests include Green and Energy-Efficient Computing, Mining Software Repositories, and Machine Learning. I enjoy working at the command line, particularly in Linux environments, and developing small, independent components and tools that simplify everyday tasks and improve productivity. I am always eager to learn, experiment with new technologies, and build practical solutions to real-world problems. In my free time, I enjoy sports, reading books, and **travelling**.

NOTE:Please consider wathcing the online CV that has diagrams and links https://stefanos1316.github.io/my_curriculum_vitae/index.html

Education

2022-2024 **MSc, Palinka Maaster Consulting**; Hungarian University of Agriculture and Life Science *Still in progress

2021-2022 **PostDoctoral, Electrical and Computer Engineering**; Queen's University Lab name: Software Evolution and Analytics Lab Lab's head: **Prof. Ying (Jenny) Zou**

2016-2021 **PhD, Computer Science**; Athens University of Economics and Business Thesis title: *Energy and Run-Time Performance Practices in Software Engineering*; **Thesis** PhD advisors: (Main) **Prof. Diomidis Spinellis**, **Prof. Panos Louridas**, and **Rizos Sakellariou**

2013-2015 **MSc, Pervasive Computing and Communications for Sustainable Development (PERCCOM)**; Erasmus Mundus Joint Master Degree ITMO University of Saint-Petersburg (Russia) Thesis title: *Implementating Green IT Approach for Transferring Big Data over Parallel Data Links*; **Thesis** Lulea University of Technology (Sweden) Semester 3: *Resource Efficient Pervasive Computing Systems and Communications* **Degree** Lappeenranta University of Technology (Finland) Semester 2: *Smart Software and Services* **Degree** Unversity of Lorraine (France) Semester 1: *Sustainable Computer Network Engineering* **Degree**

2008-2013 **BSc, Networks and Systems Programming**; University of Cyprus **Degree** Thesis title: *Implementation and Evaluation of the Biologically – Inspired AntHocNet Routing Protocol in Sensor Network*; **Degree**

Research Publications

- Conference Papers
  - Guoliang Zhao, **Stefanos Georgiou**, Safwat Hassan, Ying Zou, Derek Truong, Toby Corbin. Enhancing performance bug prediction using performance code metrics. In 21st International Conference on Mining Software Repositories: Technical Track, MSR '24. [**Link**]

Organization Services

Program Committee	EASE 2022 for the Research Track
	ISEC 2022 for the Doctoral Symposium
	ESEC/FSE 2021 for the Student Research Competition
	ASE 2020 for the International Workshop on Sustainable Software Engineering
Reviewer	Journals submitted to Software: Practices and Experience
	Journals submitted to ACM Computing Surveys (CSUR)
	Research papers submitted to ESEC/FSE
Co-reviewer	Conference papers submitted to ICSE-SEIP, MSR, OSS, ICPC, ICCS, SANER, FSE, ASE, ICMSE and SATToSE

Invited Talks

Tutorials	*How to improve your CI/CD process* presented on 5th of July 2019 at BALab of Athens University of Economics and Business in Athens, Greece. **Presentation**
	Travis CI with CV template tutorial presented on 7th of June 2018 at ITMO Univesity of Saint Petersburg for PERCCOM Master students in Saint-Petersburg, Russia. **Presentation**
Research	*Saving Energy in Software Development by Making the Right Choices* presented on the 4th of March 2022 at Sustainable Software Engineering lecture of TU Delft. **Presentation Slides**
	What are your programming language's energy-delay implications? presented on the 12th of June 2018 at PERCCOM's Summer School in Lappeenranta, Finland. **Proof**

Teaching Experience

Having weekly meetings with five PhD students and two Master students to assist and advise them on their research studies (at Queen's University from 2021 to 2023)

Assisting my PhD advisor at Programming II course (Winter Semester of 2016, 2017, and 2018) by giving tutorial and Lab sessions in Java [**Repository**]

Gave Java lectures and tutorials for the 1st and 2nd Coding Boot Camp in Athens, Greece (Oct. 2017 - May 2018) [**Repository**] [**Proof**]

Developer Working Experience

Jul 2022 – currently

Back-end developer @ **SimpleTechs** (Remote position)

- Developing applications with TypeScript and via **NestJS** frameworks.
- Using Postgres as database, GQL, and **Prisma client** to manage database access.
- Developed core services for **flexgold app**

Feb 2021 – Jul 2022

Back-end developer and DevOps: @ **Borocard** (Remote position) Coordinating the development of a savings management mobile application.

- Developing server via **NodeJS** to host appliaction and manage its clients.
- Build project management on JIRA and Trello for external collaborators.
- Used **Stripe** and **Belvo** to manage user's savings.
- Developed crons to automate logs/configs storage on the cloud and database sanitization.
- Manage the AWS hosting and **Mongo Atlas** for production server.
- Developed Ansible scripts to manage the AWS resources remotely.
- Creating **pre-commit hooks** to maintaine source code quality.

Feb 2021 – Feb 2022

PostDoctoral, Electrical and Computer Engineering Working as a **full time** researcher for the Software Analytics and Evolution Lab at Queen's University, Canada

- Conducted research studies on Green Software Development.
- Assisting PhD and Master students in their research projects.

Dec 2020 – Feb 2021

Software Developer @ **Greek Free, Open Source Software** Developing a privacy-preserving epidemic dosimeter based on contact tracing (**full time**). **Proof Repository**

- Developing **Python**, **Shell**, and **Ansible** scripts on a Raspberry Pi Zero

Jan 2019 – May 2020

Back-end developer, DevOps, and Integrations: @ **AllCanCode Inc. Greek Branch** Supported the product that facilitates fast web-sites development (by using **Blockly**) on Desktop that can be exported in smart-phones as well (**part time**).

- Development of API end-points in **Node.JS** and **MongoDB** for the product.
- Creation of the CI/CD pipeline for the product (in GitLab) to perform back-end and front-end testing (through **Mocha**, **Chai** and **Cypress** frameworks, respectively) and auto-deploy product on Google's App Engine (Aurora, Beta, and Production) using the **Flex environment**.
- Migration products functions to cloud functions using **Firebase hosting**, **Cloud Functions**, and **Cloud Run**.
- Integration of **Bitrise** system in the product to allow platform users to export their Desktop applications to Android and iOS through the **Cordova** wrapper.

Jan 2016 – Jan 2019

Proposals writing: **Singular Logic S.A.** Proposals writing for the European Projects Department as **part time**. **Proof**

TECH SKILLSET

Back-End	BASH and SHELL: often automating cumbersome and time consuming tasks
	NodeJS: mainly using Express and prefer Mocha-Chai for testing
	Java: was teaching it during my PhD
	Python: No need to read tutorials, feeling confy to code anytime
	C and C++: First languages to learn and impressed by their performance
	MongoDB: Can use native but prefer Mongoose
	Code Quality: Coveralls, NYC, ESLint, Prettier, and so on
	Pre-commit hooks: Creating my own pre-commit hooks to ease boring tasks
DevOps	Ci/CD: Fan of Travis, GitLab, and GitHub Actions
	Containers and Compose: to facilitate app deployment and execution
	Hosting: used Firebase, AWS, and Google App Engine
	Mobile CI/CD: Bitrise with Cordova wrapper for mobile apps
	Configuration Management: knows Ansible because he enjoys YAML
Certificates	Unix Tools: **Data, Software, and Production Engineering**
	MongoDB: **Basics**, **Aggregation**, **JavaScript**, and **Performance**

`Loading the data just for you.`

Recognitions and Language

- Grands and awards:
  - **Arctic Code Vault Contributor**
  - Mentored younger researcher **who won 2nd place** in SRC ESEC/FSE '19.
  - Best paper award from the 15th Annual DMST Student Conference (2018)
  - Marie Skłodowska-Curie funds, **SENECA** (€ 62,400)
  - Erasmus Mundus Masters Scholarship, PERCCOM (€ 12,0000)
- Human Languages:
  - Greek/Hungarian (Native speaker)
  - English (Fluent speaker)
  - Russian/France (Basic knowledge)
- Living Abroad:
  - Born in Gyula, Hungary but grown up in Nicosia, Cyprus.
  - Ate baguettes and drunk wine in Lorraine, France (Fall Semester of 2013)
  - Attended to many sauna parties in Lappeenranta, Finland (Spring Semester of 2014)
  - Fish ice-cold beers from lakes in Lulea, Sweden (Fall Semeseter of 2014)
  - Drunk vodka and ate borsh in Saint-Petersburg, Russia (Spring Semester of 2015)

- Teaching in Athens and visiting islands in Greece (Fall Semester of 2016 till now)
- Biked in Delft, the Netherlands for my PhD secondment (Half month of Sept. 2017)
